Short Description

High-torque, horsepower and versatility in heavy machining.

Description

The MILLAC VH Series of 5-axis machining centers are ideal for large workpiece applications. With a swivel spindle, these machines are capable of machining inclined surfaces with 0.001 degree indexing. One-chuck, multi-sided machining provides improved accuracy, reduced tool change time and significant increases in productivity. A great machine series for aerospace and other industries that require process-intensive machining.
