

# Turn-Assist 200

**Brand:** Okuma Australia

## Short Description

RoboJob Turn-Assist 200 can be equipped with a robot that can lift 20 or 35kg.

## Description

### Turn-Assist 200

- Small to medium-sized runs
- Workpieces up to Ø200mm
- Powered table with more capacity
- Robot payload: 12kg, 20kg, 35kg or more
- Two models available, Integrated "Turn-Assist 200i" (portable) or Separated "Turn-Assist 200s"

With the Turn-Assist 200, RoboJob offers you the most compact automation on the market. This model has been specifically developed for the loading and unloading of small and medium sized batches, for workpieces up to Ø200 mm.

This model has 2 servo-controlled stacking plates that allow you to stack a considerable amount of rough and finished components.

## EXTREMELY COMPACT

With the Turn-Assist 200 we have the most compact automation system on the market. The other models too, take up very little space.

With the Turn-Assist 200 you can choose from more than 4 different models:

Turn-Assist 200 i 12: removable and/or movable with a payload of 12kg

Turn-Assist 200 i 20: removable and/or movable with a payload of 20kg

Turn-Assist 200 s 12: separated, with a payload of 12kg

Turn-Assist 200 s 20 or more: separated, with a payload of 20kg or more
