
Move S2

Brand: Okuma Australia

Short Description

The Move S2 provides an innovative answer to the difficult choice between the two usual bar working philosophies of either regular length bar stocks, or short bar stocks.

Description

The Move S2 provides an innovative answer to the difficult choice between the two usual bar working philosophies of either regular length bar stocks, or short bar stocks. The “half-bar” concept of the barfeeder Move S2 combines the qualities of the two working philosophies, and reduces significantly their disadvantages. It offers new expectations of production return. In a few words “reduces to increase”.

Specification
