Description

Now in its second generation, the LAW-2S is a proven leader in the wheel industry. With its unique combination of simultaneous 4-axis turning to reduce cycle time and the gold standard Okuma reliability, it's easy to see why there are more than 2500 LAW-2S machines currently active in production lines throughout North America. A 20-inch turning diameter, powerful spindle and 10 available tools make this a true performer for all manner of wheel finishes – from mirrors to spinners, and myriad consumer upgrades. To top it all off, the LAW-2S offers efficient chip handling and a robot- and line-friendly design to accommodate any production process configuration.
